Depression in Patients With Heart Failure: Prevalence, Pathophysiological Mechanisms, and Treatment
Sue A. Thomas, Deborah Wince Chapa, Erika Friedmann, Cheryl Durden, Alyson Ross, Mei Ching Y. Lee, and Hyeon-Joo Lee

Detect depression in patients with heart failure using a symptom inventory and an interview to confirm the results.

Recognizing and Managing Asymptomatic Left Ventricular Dysfunction After Myocardial Infarction
Nancy M. Albert and Connie Lewis

Improve survival and quality of life in patients by promoting prompt use of evidence-based treatments.

End-of-Life Care in the Critical Care Unit for Patients With Heart Failure
Sue Wingate and Debra Lynn-McHale Wiegand

Predicting the progression of heart failure is difficult, and changes in treatment may be needed.

Hospital Discharge Education for Patients With Heart Failure: What Really Works and What Is the Evidence?
Sara Paul

What are the barriers to self-care and how do nurses help patients overcome these barriers?
Columns

Healthy Work Environments

Confirmation of a Healthy Work Environment
Marlene Kramer and Claudia Schmalenberg
Only staff nurses can confirm whether strategies designed to improve the health of the work environment are effective.

Evidence-Based Practice

Seven Evidence-Based Practice Habits: Putting Some Sacred Cows Out to Pasture
Carol A. Rauen, Marianne Chulay, Elizabeth Bridges, Kathleen M. Vollman, and Richard Arbour
Are we doing what is best for our patients with the current evidence available to us?

Pediatric Care

Skin Care Team in the Pediatric Intensive Care Unit: A Model for Excellence
Tracy Ann Pasek, Amanda Geyser, Maria Sidoni, Patricia Harris, Julia A. Warner, Ann Spence, Allison Trent, Libby Lazzaro, Julianne Balach, Alicia Bakota, and Shana Weichek
A team committed to a specific entity such as skin care can enhance resource availability, communication, and follow-through.
