Skilled Cardiac Monitoring at the Bedside: An Algorithm for Success
Laura Evenson and Monica Farnsworth
The ECG lead monitoring algorithm was developed to provide a tool to assist bedside nurses in monitoring ST segments and dysrhythmias.

Continuous ST-Segment Monitoring in the Intensive Care Unit
Lisa Fox, Carolyn Kirkendall, and Micky Craney
This article provides evidence-based rationales to substantiate revisions of current monitoring practices and to provide realistic strategies for implementation of new practices.

Prasugrel as Antiplatelet Therapy in Patients With Acute Coronary Syndromes or Undergoing Percutaneous Coronary Intervention
Barbara Fletcher and Karen K. Thalinger
The authors provide information on prasugrel, compare and contrast it with clopidogrel, and review the use of prasugrel in patients who require an antiplatelet agent.
Columns

**Nursing Grand Rounds**
A Guide to Develop Nursing Grand Rounds
Rochelle R. Armola, Jan Brandeburg, and Deb Tucker
The debut article for this column describes the development of nursing grand rounds guided by a clinical nurse specialist.

**Pediatric Care**
Basic Interpretation of Metabolic Acidosis
Melissa Beaudet Jones
What are the basic concepts of acid-base balance, the 2 types of metabolic acidosis, and the common causes of each type of metabolic acidosis?

**ECGs and Pacemakers**
Belhassen Ventricular Tachycardia: A Case Study
Lauren Weaver, Michelle Curry, Linda Schakenbach, and Kathleen Yakobitis
The authors summarize the information in the literature, present a case study, and describe the nursing care provided.
